INVESTIGATING IN BOSTON.

THE FORD COMMITTEE HAS TRANSFERRED ITS SEAT OF INQUIRY.

A Witness Found Who Belleves That Acsleted Emigration from England and Ireland Is Now a Thing of the Past-Emieration Statistics Gathered from the Chief New England Ports.

row, Aug. 27 .- The special Congresnal Committee appointed to investigate into the alleged violation of the Immigration and Contract Labor laws, having made many startling disclo-ures in their work at New York, commenced their work in Boston this

But three members of the committee were present, Chairman W. H. Ford and Me-ars. Wi liam C. Oates and Richard Guenther. Measrs. Morrow and Spinola were the ab-

Congressman Oates occupied the first half hour of the time in reading his voluminous mail, and the others waited patiently for the app arance of the first wi ness.

The Bowker-force matter of imported labor will not be considered by the committee at this session, owing to the fat that the app ial agents of the Treasury Department are investigating the allegation and collecting evi ence preparatory to the trial of the offenders.

Chairman Ford and the Socialist leader, Mr. Lee, engaged in a teep and interesting discussion of the .il-important topic, the one holding his known political yews and the

holding his known political views and the other trying to convince him of the value of the Socialistic theory.

The first witness called was Stephen C. Wrightington, who is also State superintendent of Indoor Poor. He testified that he is agent of the state Board of Charities and Imasoy. He has held this position twenty-nine years. He has been acting agent of the Board since 1863. Pror to 1883 it was a State law under which he acted. It is now a national office. The Secretary of the Treasury agrees to reimburse the State Board for any expense incurred in this work.

There have landed at the ports of this State in the last year 78:182 passengers, and of these 47,062 were immigrants. Many of these atter land at New Bedford and Provincetown.

At this juncture, Mr. Wrigh ington handed to Cha rma: Ford a purser's list of calin any steerage pussengers, in which are included lists of those was should not be permitted to land, and from which he made reports.

Mr. Wrightington s id in the last year 107 persons were found who ought not o have been landed, classified thus: Three lunatis, one convict, fifty-seven paupers and forty-six contracted fr. Of these, six of the paupers were landed and fifty-five of the others returned.

Mr. Wrightington became aware some time ago that the British Government and the Tuke Soc ety were assisting emigrants to this country. Some 7,500 were so assisted, It was founded by Mr. Tuke, of New York, a banker, and was a charitable scheme. Through them about \$1,000,000 was appropriated by the British Government for that purpose.

The Mansion House fund was raised for the purpose of assisting the Russian Jews of Orimea to emigrate to Am-rica. In 1842 a large number arrived in this city. They were the poorest set that ever came here and filled up the almshouses. They would not eat the same bread or other food, and had to be sent back.

The business of assisted emigrants, the witness believed, has become a thing of the

Balfour has declared in the British House that it having been found impossible to land them in this country no more assisted emigrants will be sent from England and Ireland to America.

The witness remembered well the case of Johanna Casey, brou ht here by the Cunard line, who was not allowed to land, and whose beinging over cost.

SHE CAN'T BULY THE BABY.

The Sad Story of a Bereaved Elizabeth

Mrs. Robert Toole was sitting dejectedly in the basement of the rear house at 305 Elizabeth street, and a muslin bow with satin ribbon streamed from the door, when an Evening World man called to see whether the money had been found for burying her

The brown paper curtains of the small window were drawn down and an ice-box window were drawn down and an ice-box wrapped in white canton fiannel stood on a stable near them. Through a piece of glass about the size of the top of a hat could be dimly seen the pre-ty face of the dead laby Robert, sixteen months old. At the head of the ice-box stood a candelabrum and a cruchix. Four or five women were quietly sitting around the room.

Mrs. Toole's case is a hard one. Her husband used to be a ticket speculator and have no trade. He cannot get any work. For five weeks he was with the John L. Sullivan circus and he did not get a cent of his wages.

Mr. Too's said to the reporter: "He is a good man and sober, and he loves the children and would run his legs off for me. If he wasn't that kind of a man I wouldn't work and support him. I was at a restaurant and got \$6 a week, till baby got sick. But \$2.50 went for rent for a hall room, and I had to pay a woman \$2 week for looking after the baby when I was out at work.

"I had to put the other two children out.
They are at Staten Island. As soon as I can
I shall go to wok again; but I don't know
when we will get the money to bury the
baby"

I suall go to wo k again; but I don't know when we will get the money to bury the baby."

Mr. Kellogg, of the Charity Organization, visited Mrs. Toole this morning and said the baby could be buried at St. Michae.'s, Astoria, but it the family buries it a carriage will be \$5.50, the icing is \$4, and the candles are 75 cents. A plain coffin will cost \$6, so that the expenses will amount to \$16.25. It costs a poor family more for a baby to go out of the word than to come into it. Mrs. Toole seems a very deserving woman.
